

137th Annual Meeting of the
Pharmaceutical Society of Japan in Sendai

3rd International Symposium for Medicinal Sciences

Date : Sunday, March 26, 2017

Time : 10:00-17:30 (Tentative)

Venue : Sendai International Center

Overview

The Symposium will become an important international platform for all interested in the medical sciences to exchange information, as well as encourage pharmaceutical companies to participate in the Annual Meeting of the PSJ. Furthermore, the Symposium will provide a forum for highlighting the uniqueness of the PSJ, a society dedicated to basic research both for drug discovery and for pharmacists working at clinical site.

Program

■ Plenary Lecture

"The Automation of Early Stage Drug Design Using a Robot Scientist"

Prof. Ross D. King

(Machine Intelligence, School of Computer Science at the University of Manchester)

"High Resolution cryo-EM of Protein Complexes"

Dr. Sriram Subramaniam

(Center for Cancer Research, National Cancer Institute, NIH)

■ Invited Poster Presentations

Excellent studies from academia, venture and pharmaceutical companies involved in drug discovery will be presentation on poster with short oral talk. Posters will be invited by the Symposium committee.
