---

Based on the “Basic Law for a Gender-Equal Society”, the PSJ has initiated the activities on the promotion of gender equality and has dispatched a Declaration on the generation of the Gender-Equal Society. In the last annual meeting, the symposium entitled “PSJ’s organizational approach of the promotion of gender equality” was organized and opinions regarding the present status and challenges on the approach were exchanged between the speakers from the government and various fields. In this symposium, the promotion of gender equality in young generation will be focused for further discussion. The president of the PSJ will talk on the current status of the PSJ’s activities of the promotion of gender equality, followed by the invited speakers from academia, pharmaceutical industry and hospital pharmacy for their specific topics. The organizers of this symposium would like to take this opportunity to discuss future direction of the activities of the promotion of gender equality and to exchange opinions on those by the PSJ in the future.
